

Press release from Electrocompaniet, September 2011

Electrocompaniet launches new multiplayer EMP 2

This month Electrocompaniet is launching a new multiplayer in our Classic line, the EMP 2 is a fully fledged and versatile player with support for all modern audio and video formats and media. Included Blu-ray in 2D and 3D, CD, SACD, DVD and DVD Audio.

Modern video- and audio processing in both two- and multichannel gives excellent picture quality and HighEnd sonic quality.

Lots of connections give great flexibility both for use in a surround or stereo set-up, or a combination of the above. The EMP 2 is a real multiplayer that works perfectly as a player in multichannel set-up and as a two-channel CD/SACD player.

The EMP 2 offers both phono and XLR balances outputs – the way you would expect it from an Electrocompaniet product.

EMP 2 will be available in October and will have a RRP of €2.850.

Highlights:

- Qdeo video processor from Marvell for optimal Blu-ray playback gives a natural picture without noise and artefacts. DVD movies are upscale to HD-format.
- SACD playback is possible in both stereo and multichannel – using DSD format. The DSD data-stream is sent directly from the disk to the DAC's for direct transmission to analogue audio. Filters on the output removes high frequency noise and amplitude and phase characteristics of the signal is maintained.

ELECTROCOMPANIET

If music really matters...

- A separate balanced stereo output offers high quality two-channel playback to you existing stereo set-up. Discrete class A output circuits and the best DAC available makes this player even better than the EMP 1. PCM format is up scaled to 192kHz/24bit before being sent to the DAC's, DSD format is direct.
- **Audio:** Dolby True HD, DTS-HD Master
- **Video:** True24p Video, Blu-ray 2D/3D, Full HD 1080p, BD-Live (Profile 2.0), BonusVIEW, HDMI 1.4a
- **Media:** CD, DVD, SACD, DVD-Audio, Blu-ray (2D and 3D)
- **Streaming:** DLNA Certified, Ethernet/WiFi
- **Connections:** Dual HDMI 1.4a, eSATA, USB2.0, RS232 , Ethernet wired and wireless, 7.1ch audio, 2.0ch balanced, Composite & Component video

Electrocompaniet - 38 years of quality Hi-Fi products from Norway

Electrocompaniet was established in 1973 and is the leading Norwegian manufacturer of high quality Hi-Fi equipment. The product range consists of CD-players, DAC's, amplifiers and speakers available on both a Classic line and a budget line named Prelude. Electrocompaniet products are made in Norway and sold by authorised distributors and dealers in more than 50 countries.
